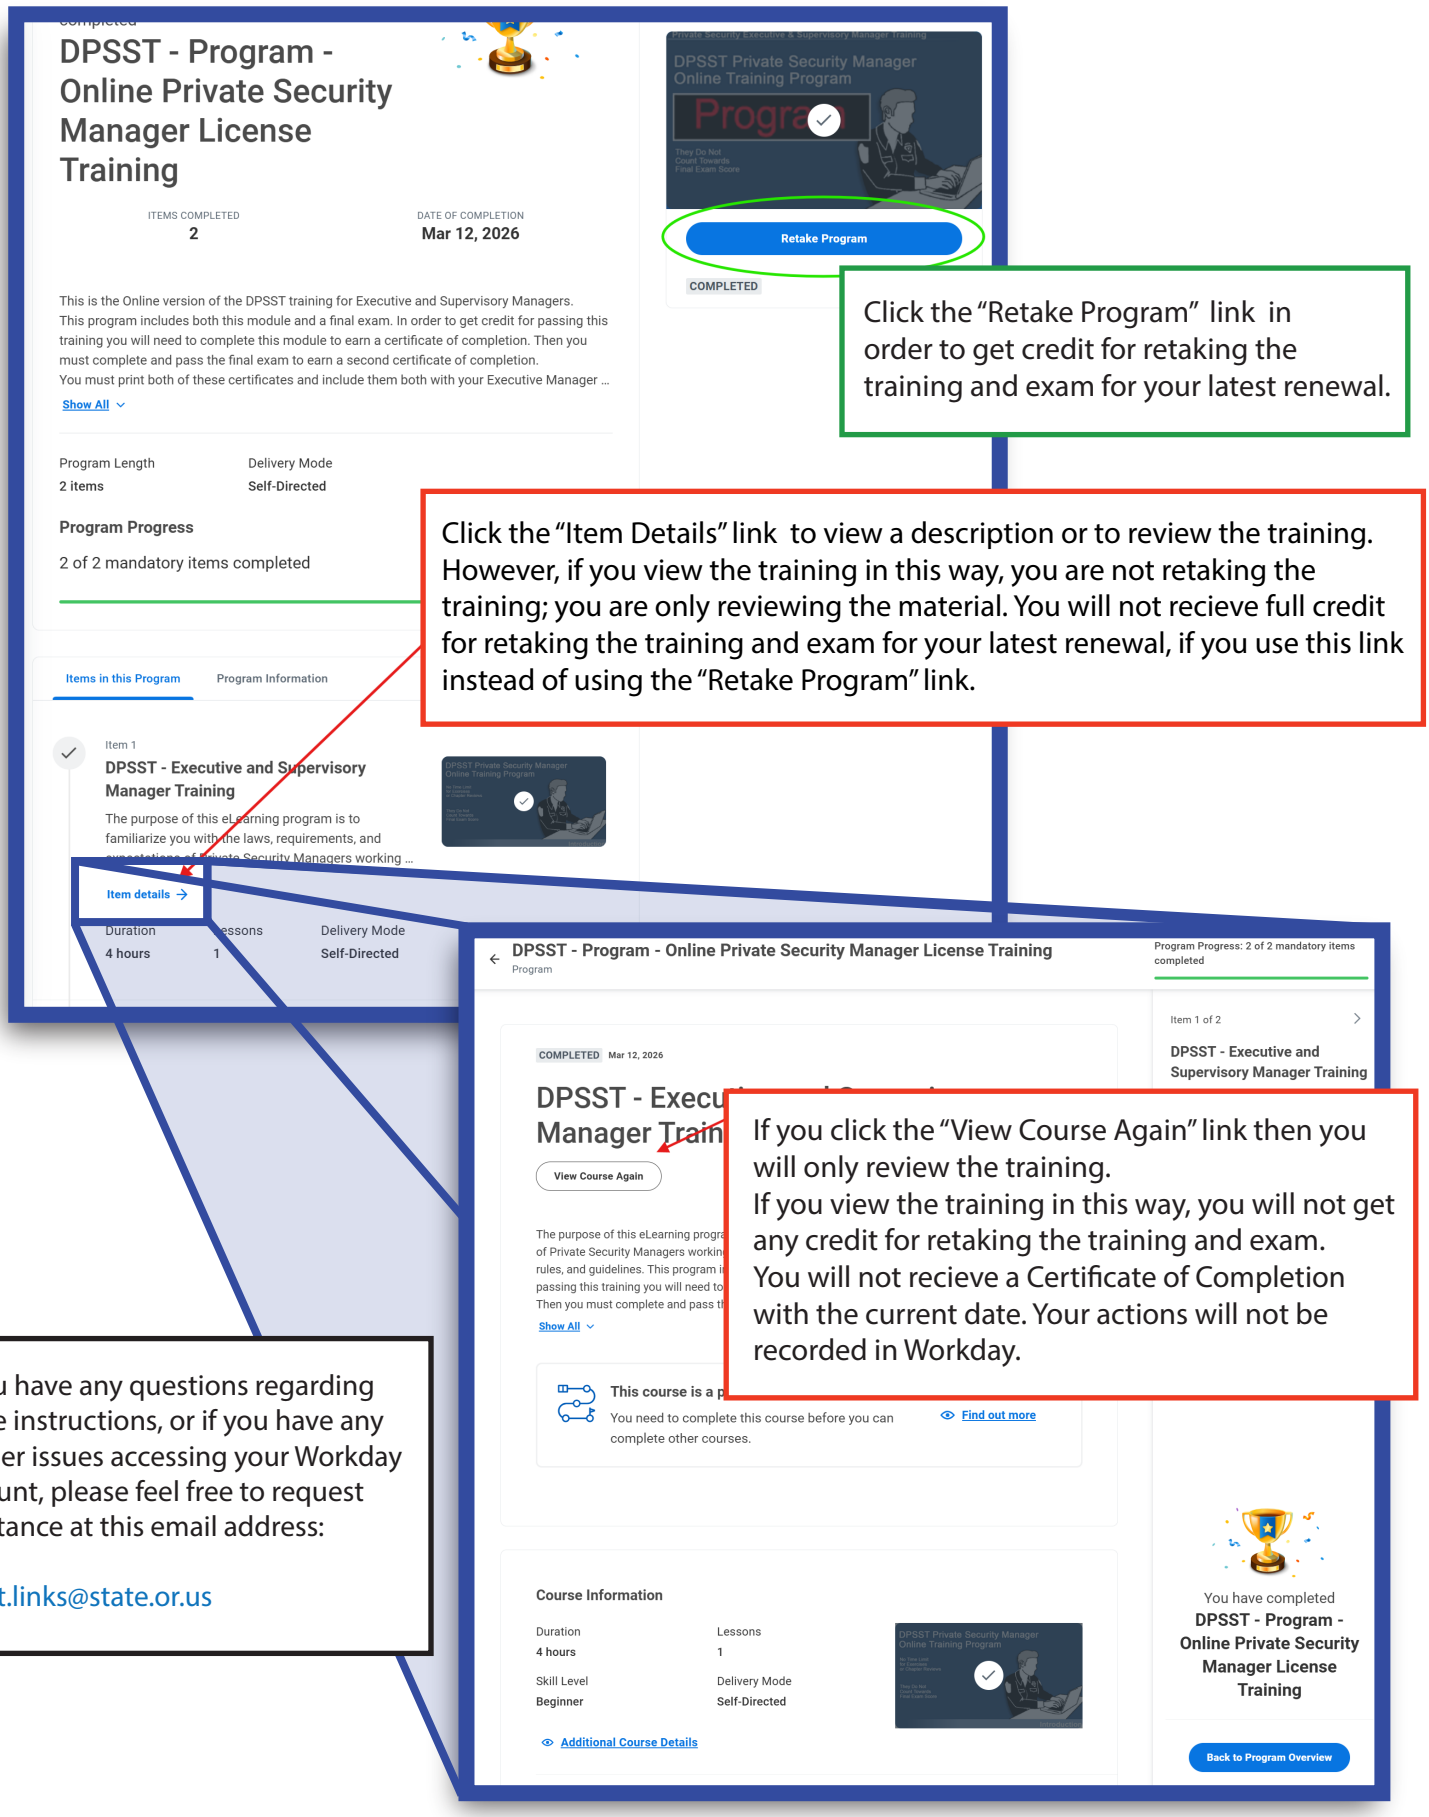
How To Retake DPSST Online Training in Workday

Renewing applicants should access the online Private Security Manager License training program at this link:
https://wd5.myworkday.com/oregon/learning/program/40b622bd1e131002049178901aca0001



Click the "Retake Program" link in order to get credit for retaking the training and exam for your latest renewal.

Click the "Item Details" link to view a description or to review the training. However, if you view the training in this way, you are not retaking the training; you are only reviewing the material. You will not recieve full credit for retaking the training and exam for your latest renewal, if you use this link instead of using the "Retake Program" link.

If you click the "View Course Again" link then you will only review the training.
If you view the training in this way, you will not get any credit for retaking the training and exam.
You will not recieve a Certificate of Completion with the current date. Your actions will not be recorded in Workday.

If you have any questions regarding these instructions, or if you have any further issues accessing your Workday account, please feel free to request assistance at this email address:
